

Faculty of Architecture And Planning

Dr. A. P. J. Abdul Kalam Technical University, Lucknow

The Urban and Regional Planning is about improving the quality of cities and regions. Professional planners assist government, communities and companies to integrate the environmental, economic and social aspects of development from local area to regional level.

Graduates of the Master of Urban and Regional Planning program are well-versed in planning principles, ideas, and practices. Course typically emphasises the acquisition of skills through practical projects within a wider intellectual framework of design and public policy.
