Arch).As of the academic year 2000-2001, it was affiliated with the newly founded 'U.P. Technical University, Lucknow' for all academic affairs, in accordance with a government decision that applied to all other technical institutes in the state.

principal's message

"Architecture is a usual art and is experienced through all our senses. According to Corbusier, we feel it through eyes that see, head that turns and the legs that walk."

The buildings are the reflection of man's aspirations. These designs are brought to life by architects. These architects are created from young creative minds through rigorous training and technical knowledge imparted by experienced faculty and a conducive environment. At the faculty of architecture, AKTU, we aspire for out of the box solutions and yet be grounded in reality.
